

1 February 2007

**RE: COMPANY NAME CHANGE**

The telecommunications cable manufacturing business and assets of Reunert [ATC (Pty) Ltd] and Altron [Aberdare Cable (Pty) Ltd] merged on 1 February 2007 following the earlier approval of the proposed merger by the Competition Tribunal. The merged entity, to be known as **CBI Electric: Aberdare ATC Telecom Cables (Pty) Ltd** ("new company"), will be located at and operate from the existing Reunert facility in Brits, North West Province and Lambda in Rosslyn.

This new company will have state-of-the-art assets, utilizing the best equipment of the merged entities, and will be capable of producing the entire spectrum of copper and optical fibre telecommunications cables. The assets located at the Aberdare facility in Port Elizabeth will be moved to Brits over time. With the available capacity, the new company will be able to serve the local fixed line telecom operators as well as pursuing opportunities outside South Africa, especially in Africa.

The current Managing Director of ATC trading as CBI Electric: Telecom Cables, Koos Vorster, will head up the new operation. Reunert and Altron will jointly control the operation, through their respective subsidiaries and their empowerment partners.

With the retention of the existing management, we feel confident that we will be able to provide the same fine service and products on which our reputation has been based in the past.

During the changeover phase, ATC (Pty) Ltd T/A CBI Electric: Telecom Cables will fulfill all commitments for outstanding orders and continue to deliver products to you as if nothing has changed.

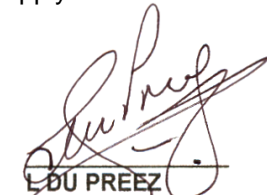

In order for the new company to be operational, certain administrative and legal formalities (VAT No: 4120233707, Registration No: 1967/005978/07) need to be completed before you will be able to place orders directly on CBI Electric: Aberdare ATC Telecom Cables (Pty) Ltd. Once these formalities have been completed, our Sales and Marketing team will contact you to arrange for the necessary information, in order to facilitate the smooth changeover to the new company.

Should you require additional information relating to the new company in order to amend your records to take the new company into account, we will gladly supply such information.

Yours sincerely

**J A VORSTER**  
Managing Director

**L DU PREEZ**  
Div. Director: Sales & Marketing
